

According to the available area sizes and feeder width to calculate the max feeder qty.

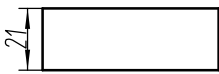

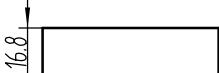

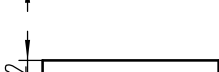

Example: A area is 98mm,8mm feeder width is 13.2mm, then max.qty of 8mm in A area will be  $98/13.2=7.4$ , then the qty should be 7pcs.

Please note:each area should be left with some blank for installation, generally no less than 3mm

Unit:mm

A.B.C areas with shadow are for reel feeders

	16mm feeder, width 21mm
	12mm feeder,width 16.8mm
	8mm feeder,width 13.2mm
	24mm feeder,width 28.8mm
